

**IA/PSD Case System : Summary (Public)**

---

Pfeifer, E. responded to a Domestic Violence call and intended to make an arrest because the male involved stated he was hit repeatedly in the face and in the nose bridge area where he felt pain. Pfeifer, E. stated he saw redness in this area. The female involved was the mother of a child belonging to a PPD Recruit Officer. The RO came and collected the child. Pfeifer discussed the case with two sergeants who agreed the female must be arrested. However, Pfeifer released her into the RO's care (she was heavily intoxicated), claiming later that in photos of the male's injuries, they appeared to be possible sunburn. When his supervisor learned of events, Pfeifer was directed to immediately return to the whereabouts of the female and arrest her based on the information from the scene. His violation was sustained and he must receive DV training in addition to discipline in the form of a Letter of Warning. [08/28/2024 14:48, [REDACTED] PPD]
