I appreciate your clarification regarding the Secretary of State's records and would like to submit a revised Colorado Open Records Act (CORA) request. I acknowledge and take full responsibility for the oversight in my previous request where I mistakenly referenced "costs to the city." This should have stated "costs to the state." I appreciate your understanding.

Pursuant to CORA, I am now requesting the following information specific to employees who work on fulfilling records requests for the Colorado Department of State:

Employment Information:

1. Average hours worked per week for employees tasked with CORA request redactions, reviews, and processing.
2. Hourly rate or salary information for these employees.

Benefits and Compensation:

1. Any additional compensation these employees receive, such as overtime or bonuses.
2. Details of any insurance coverage provided, including health, dental, and vision.
3. Costs incurred by the State for employee benefits, including retirement contributions and other fringe benefits.

Specific Employee Information:

Additionally, I request the following information regarding your salary and compensation details as Legal Policy Advisor:

1. Annual salary or hourly wage.
2. Any additional compensation, such as bonuses, overtime, or special allowances.
3. Costs associated with benefits, including health insurance, retirement contributions, and other compensation provided by the State.

If there are costs associated with fulfilling this request, please provide a detailed cost estimate before proceeding. If parts of the requested records are exempt from disclosure, I kindly ask that you provide any non-exempt portions and include a detailed explanation for any redactions or withholdings.

Thank you for your attention to this matter. I look forward to your response within the timeframe provided under CORA.

Sincerely,

Harry Cooper

Hello Mr. Cooper,

I am a legal advisor in the Secretary of State's office. Your original CORA request seems to be for a city, and the Secretary of State does not hold any information about city record custodians in the state of Colorado.

Are you now creating a new request?

Thank you,

Alonit Katzman

Is there a records department for the secretary of state? Who handles your cora request responses? Whoever that is I would like the records that I requested for that person or persons please.

Thanks

Harry Cooper

Good afternoon,

The Colorado Department of State does not process all open record requests for the state. You must request records directly from the appropriate government office or custodian of the records. Other agencies may have different processes for open records requests, so contact the appropriate office to review its process. Likely, you will need to direct your request to the city in question.

Thank you,

Good afternoon,

While we have no record of this, we estimate fulfilling this request took approximately one hour or less.
